

THE VISION

Written by Guesly Dessieux, Founder and Executive Director

As we enter a new year, I believe that God has great plans for Project Living Hope, the people of Camp Marie, and the people of Haiti. A few years ago when I started talking about this idea, this big vision and dream of starting an organization that empowers people and creates disciples, I was sure my wife thought I was crazy. She knows I don't do things small. For me, it's always "go big or go home." Sometimes, we can have such huge dreams that we are afraid to even talk about them, but this was something I wanted to share with others and act on, no matter how big the task seemed.

In Ephesians 3:20, Paul refers to God as, **"Him who is able to do immeasurably more than we ask or imagine, according to his power that is at work within us."** Like anybody, I sometimes battle the fear that I am not capable of succeeding at this, but I always come back to believing that God can do something huge through us. Do you believe that? That God can do immeasurably more in you and through you than you could ever imagine? Is He just waiting for you to take the needed steps in obedience?

We believe that God wants to use Project Living Hope to reach more people for Christ. Our vision as an organization is to empower Haitians to build a stronger Haiti. We focus on purposefully training up strong, future disciples that will have a heart for Christ and that will train up more disciples. We want this movement to change Haiti. Right now, there are 11 million people that live in Haiti with less than 20% of the population being devoted Christians. As an organization, we want to be part of reaching both young and old for Christ. We focus primarily on reaching Haiti's next generation for Christ through purposeful discipleship and we believe that God can do immeasurably more through them to change their families, their friends, their communities, and their country than they could ever imagine. We are not looking for a quick fix but are undertaking a process that takes time and requires investing in relationships.

EMPOWERING HAITIANS TO BUILD A STRONGER HAITI

WWW.PLHOPE.ORG

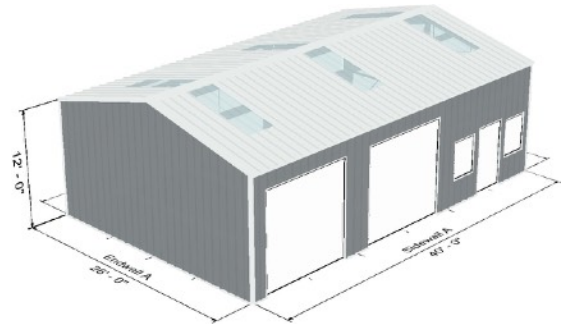

THE KING CENTER

We are planning four weeks of construction this March to place drainage pipes, resurface the soccer fields for future turf placement, address erosion, and build a shop and garage. We have purchased three shipping containers to send equipment and materials to Haiti. The first two shipped out in late January and include the backhoe, miscellaneous tools, erosion control materials, HDPE pipe, tables and chairs for the English class, and balls and cleats for the soccer program. The third one will follow in February and include the building materials. We may face obstacles and setbacks but we move forward in faith knowing God can do immeasurably more than we can ever imagine.

FIRST TWO BUILDINGS

These first two buildings will allow us to start offering job skills programs as well as provide a shaded area for Bible training with the children and youth in our sports programs and for staff meetings and trainings. It will temporarily house English classes until we are able to build the education center.

Is God asking you use your talents and skills to be part of His story in Haiti and go on a trip with us this year? For more information visit www.plhope.org/mission.

Would you donate financially to the programs and building projects? To give, use the enclosed envelope or visit www.plhope.org/donate.

We believe that God can do immeasurably more through each one of you than you could ever imagine.

Thank you for your support and prayers!
