DISCIPLESHIP

Discipleship is a key focus of Project Living Hope. We train, equip and empower our staff and coaches to grow in their faith so they can share their faith with the people we serve. We choose strong Christian leaders to serve in our ministry who are excited about their faith and want to use their gifts to bring others to Christ.

FIRST RELIEF VENTURE - WORKING AS A COMMUNITY

Athletics, job skills training, community development and disaster preparedness. These are the four areas of Project Living Hope's work. This past fall, a disaster hit PLH's Haitian community for the first time since we began our work in Camp Marie. The political situation in the country created what Haitians refer to as "Peyi Lok" or "Locked Country." During this time, individuals could not get to work, kids could not go to school, prices rose and resources became hard to find, much less buy. The time came for PLH to join with community leaders to devise a plan for relief. What followed was 6 weeks of collaboration and partnership between PLH leaders and Haitian staff, local leaders and pastors, and you, the PLH champions. Together, you raised over \$17,000. Your generous giving financed the plans which were carried out through unified effort within the community of Camp Marie. We are proud of how our Haitian staff stepped up to manage this project and how the pastors, farmers and working individuals came together to accomplish something that benefited all. It is never our goal to bring attention to PLH and what we may accomplish. It is our goal to support and empower local leaders and the greater community to accomplish great things for their community. We appreciate all of you who stepped up to support and pray for this project. We appreciate the nine churches who carried out the purchase and distribution of food and facilitated the agreement with the farmers. We loved seeing God bring together the community of Camp Marie and the community of PLH champions to accomplish all of this.
